

Definition of food education, research and best cases

Sanna Talvia, February 10, 2021

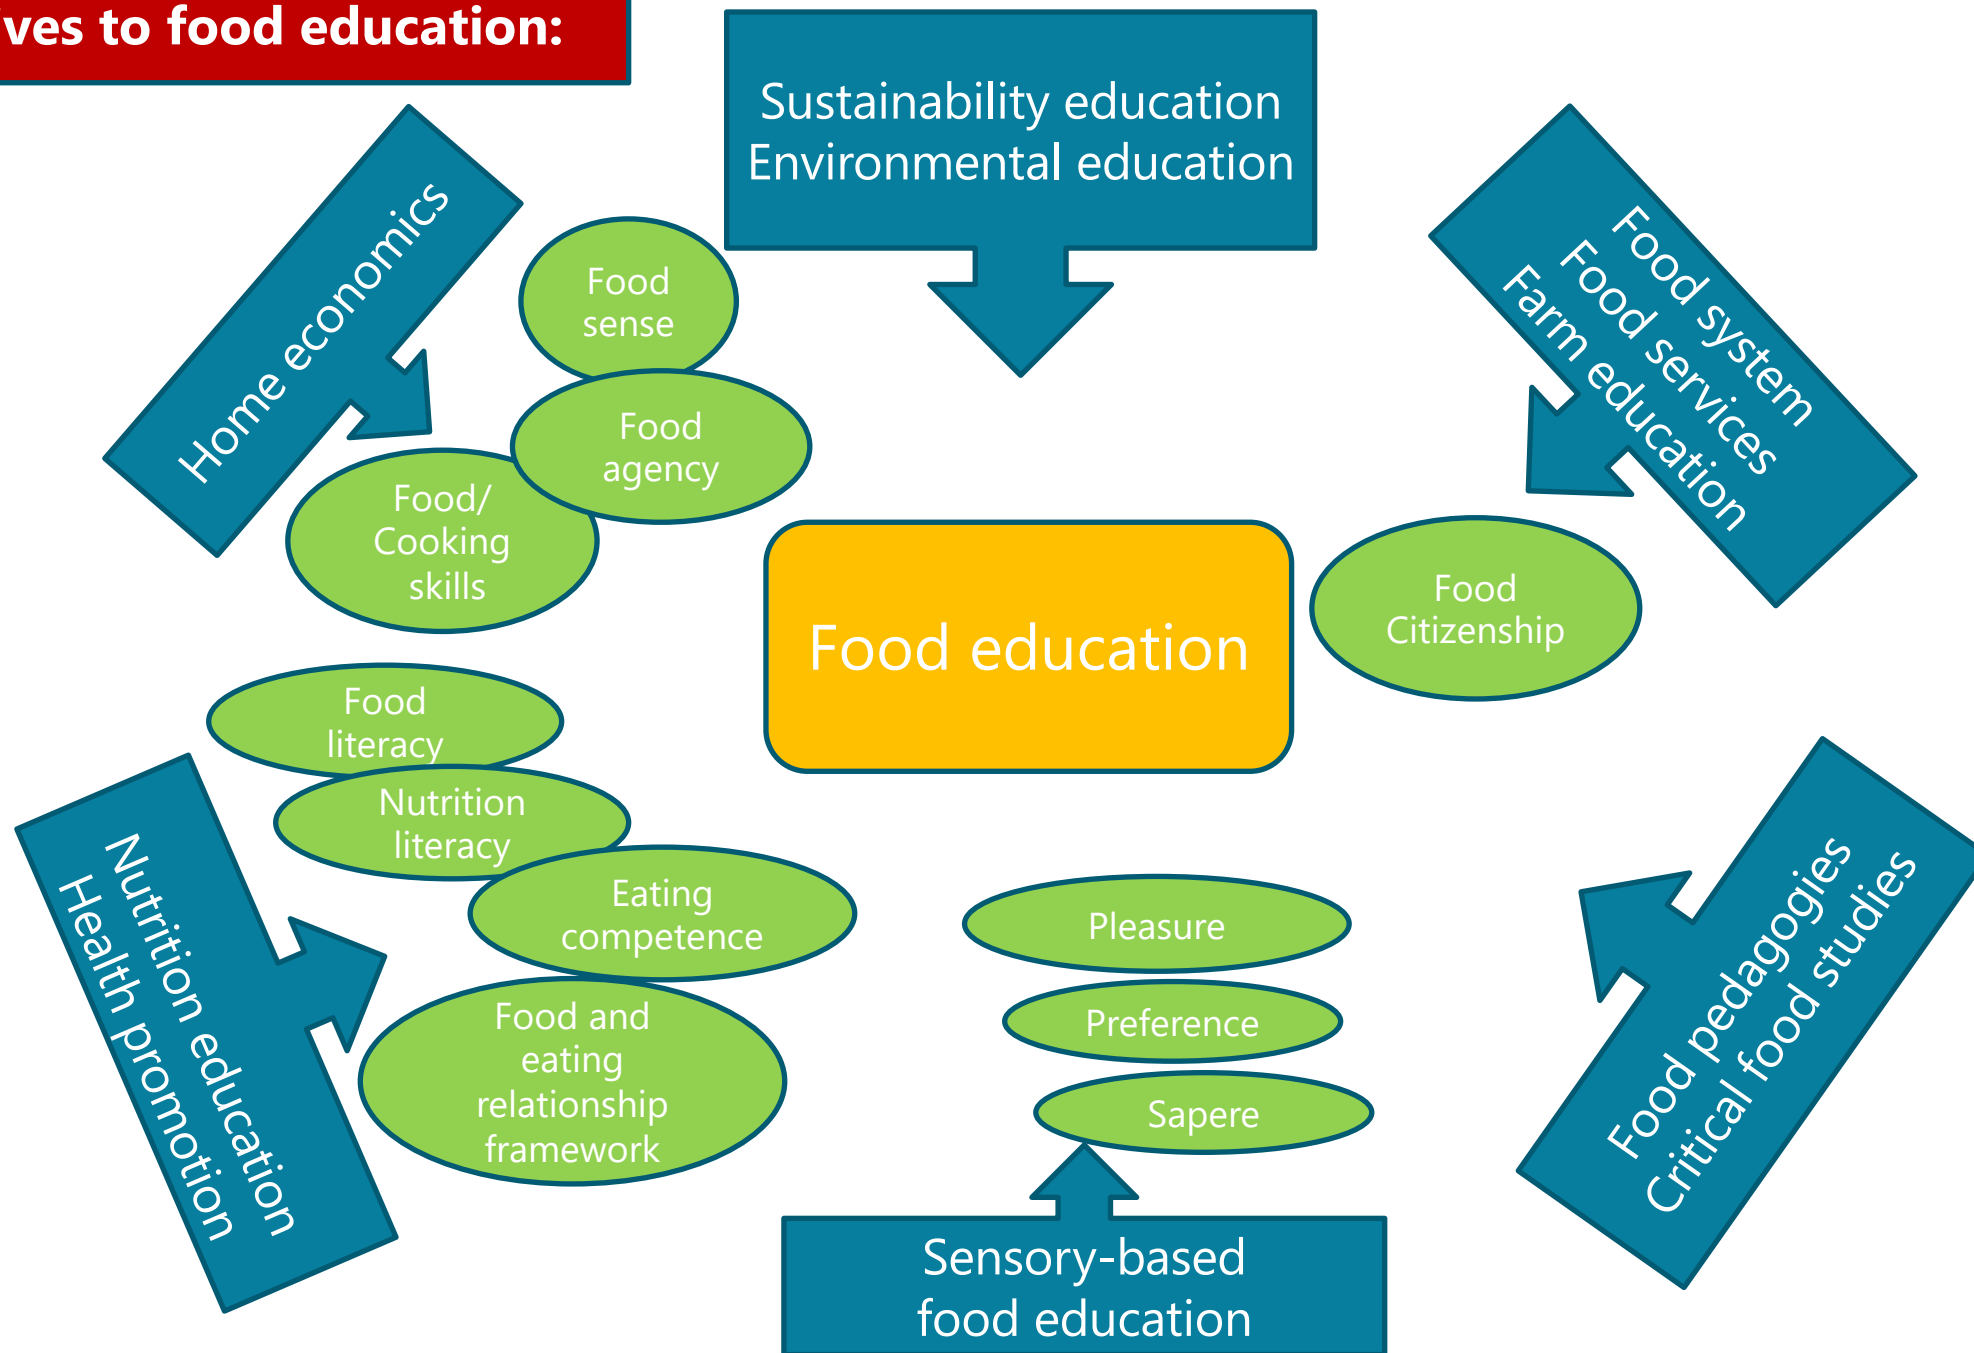

Food education as pedagogical activity

Why do we need concepts, conceptualization and definitions?

Why we need research?

To understand, communicate and develop.

Perspectives to food education:

To do –list for future discussions in research and practise

- What is “education” in food education?
- What are values and aims of food education? – Do we have potentially conflicting values and aims?
- Pedagogical theories in food education?
- How we evaluate the impacts and outcomes of food education?
